Subject: CHPAC TSCA charge response letter

Good afternoon Administrator Regan,

I wanted to touch base with you about the Children's Health Protection Advisory Committee (CHPAC) TSCA charge response letter, sent January 2021 (attached). Michal Freedhoff sent an interim reply last February (attached) to let me know that the Agency will respond once the administration transition had occurred and there was an opportunity to get input from new leadership at EPA. I just wanted to check in to make sure the EPA response letter is still in process since the original CHPAC letter was sent during a time of major organizational change.

On a related note, CHPAC recently sent a letter to you with recommendations about children's environmental health in school and child care settings (attached). In the past, CHPAC letters were posted on the CHPAC comment letter webpage (<https://www.epa.gov/children/chpac-comment-letters>) when they were delivered to the administrator. Existing policy appears to be that CHPAC letters will not be posted until after an EPA response has been sent to the chair. If this will not be the current policy going forward, please let me know. It is nice to post charge question responses when they are the most timely, and it is easier to direct inquiries that the committee receives to the letters online.

Thank you for your time, and I hope you have a wonderful upcoming holiday weekend!

Sincerely,
Deanna Scher
CHPAC chair

Subject: CHPAC TSCA charge response letter

Dear Administrator Regan,

Last January, the Children's Health Protection Advisory Committee (CHPAC) sent a letter to Acting Administrator Nishida responding to charge questions focused on TSCA chemical prioritization and data needs (attached). We received an interim response from Michal Freedhoff, which is also attached or can be found here: <https://www.epa.gov/children/chpac-comment-letters>. Since the CHPAC letter was sent during a time of transition for EPA, I'm re-sending the letter to you directly as the new EPA Administrator.

The CHPAC looks forward to continued opportunities to provide advice to EPA on issues related to children's environmental health. Please feel free to reach out to me with any questions.

Sincerely,
Deanna Scher (CHPAC chair)

Subject: CHPAC TSCA charge response letter

Dear Acting Administrator Nishida,

The Children's Health Protection Advisory Committee (CHPAC) is pleased to send our letter responding to charge questions focused on TSCA chemical prioritization and data needs. We appreciate the continued opportunity to provide advice to EPA on issues related to children's environmental health and look forward to working on other topics going forward.

Please feel free to reach out to me with any questions. We will also mail a hard copy of the letter.

Sincerely,
Deanna Scher
